5. Entering marks 4
6. Lesson notes, assignments and CBT 5
7. Announcements, Wall and AI helper 5
8. Common problems and questions 5

1. Welcome

This guide shows class teachers how to use the Staff portal. It is written for phones, but everything also works on a computer.

> **About the pictures in this guide.** The sign-in screens are real screenshots of the live system. Pages behind sign-in are explained with diagrams and plain steps, because the documentation team could not sign in to the school's live records from the test computer, and no real pupil or parent information may appear in a guide.

2. Signing in

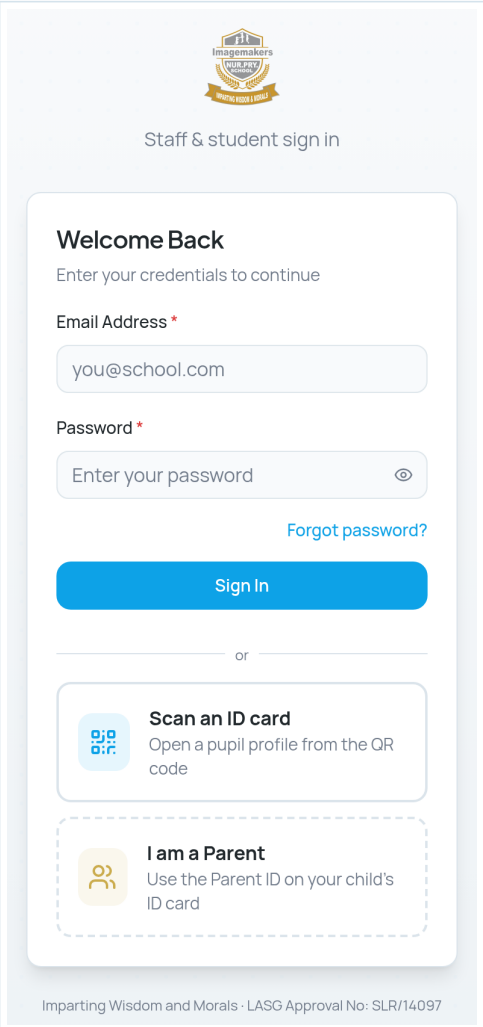

Figure 2.1 — Sign-in on a phone (real screenshot).

1	Open the school system address.
2	Enter the school email and password given to you by the office.
3	Tap **Sign In**. The Staff portal opens.
4	Never share your password. If you forget it, tap **Forgot password?**

3. What you can and cannot see

Figure 3.1 — Your work is organised around your class.

You can	You cannot
See the pupils in your own class	See other classes' pupils
Mark your class's attendance	Change fees or invoices
Enter CA and exam marks for every subject of your class	Publish results without approval
Write lesson notes, assignments and CBT tests for your class	Edit school settings or staff records

If you see no pupils, your account has not yet been set as the class teacher of a class. Ask the school office.

4. My Class and attendance

Open **Classes** (My Class). You will see your class, its pupils and buttons for **Mark attendance**, **Enter results** and **Report cards**.

1	Tap **Mark attendance**. Today's date is selected.
2	Mark each pupil present, absent or late.
3	Tap **Save**.
4	Reopen the page to confirm your marks were kept.

Clocking in

Clock in from the Staff dashboard when you arrive. A clock-in after **7:30 a.m.** is marked late. Your phone must allow location so the system can confirm you are at school.

5. Entering marks

1	Open **Gradebook**. Your class is already chosen.
2	Choose the subject and the term.
3	Type the CA mark in the **CA (40)** column and the exam mark in the **Exam (60)** column.
4	The total and remark fill in automatically.
5	Tap **Save**, then **Submit for approval** when the subject is complete.

Total score (CA + exam)	Remark shown
90 – 100	Outstanding
70 – 89	Excellent
60 – 69	Very Good
50 – 59	Good

Total score (CA + exam)	Remark shown
40 – 49	Fair
0 – 39	Poor

Please wait for the school to confirm whether CA is entered out of 40 and exam out of 60 (as the screen shows) before entering a whole term. Specialist A–E grades (French, Diction, Coding, Abacus, Creative Art, Yoruba) do not yet have their own entry screen.

Correcting a mistake

Before approval you can change a mark and save again. After approval, ask the school office to reopen it.

6. Lesson notes, assignments and CBT

- **Lesson plans**: write the topic, objectives, activities and resources. Your class is filled in for you. The office can view your notes; a formal approve/return step is not built yet.
- **Assignments**: create homework for your class with a due date. Pupils see it under Homework.
- **CBT**: create an online test, add multiple-choice questions and set it to active when pupils should take it. Pupils never see the correct answers.

Timetable: there is no screen yet for teachers to build their own timetable. If your timetable is empty, that is expected for now.

7. Announcements, Wall and AI helper

- Announcements from the school appear on your dashboard.
- The Wall is a shared space for staff, pupils and parents. Keep posts professional.
- The AI helper can suggest wording, such as report comments. Always read and edit what it writes. Do not paste private pupil information into it.

8. Common problems and questions

Problem	What to do
No pupils showing	Ask the office to set you as class teacher of your class
Marks did not save	Check your internet, then save again and reopen the page
Clock-in refused	Allow location on your phone and make sure you are on school grounds
Pupil missing from my class	Ask the office to correct the pupil's class

Can I see other classes?

No. You only see your own class, unless the office also links you to a specialist subject in another class.

Can I publish report cards?

No. You prepare and submit; the school publishes.
